

Lady Germaine's Haunted Manor

There is a manor that used to belong to Lady Germaine, a woman who inherited a vast fortune from her family. Mysterious circumstances led to the death of the Lady's infant and after the tragic death, the entire household passed away quickly one by one including the Lady herself. From that time on, whoever stepped into the manor has never returned.

Not everyone is discouraged by such old tales. As a teenager who dabbled in her supernatural gift, Ruby was more interested about the infant's mysterious death rather than the fabled curse. Her friend Jeremy did not share Ruby's enthusiasm, though he had little option as he was simply dragged into it. The two teenagers ventured the manor, with only a torch and a pendulum to aid their work, but little did they know about what they had just stepped into.

Join the teenagers on their adventure in Lady Germaine's Haunted Manor, and play the slots to find clues about the Lady's fallen child. Get aid from Ruby's gift and Jeremy's torchlight to find as many clues as you can, and run away from the Lady's ghost! Prepare yourself, for you may be called to the Hall of Mirrors, where the Angel of Death awaits.
