

Whitechapel Murderer

Whitechapel Murderer immerses you back into the impoverished Whitechapel district of London in 1888. The East End is in the midst of its most feared killer ever, Jack the Ripper. He is still at large, choosing victims at will, seemingly unstoppable to law enforcement. The only issue he has is getting his tools in order – they are all over the place. Playing Whitechapel Murderer, the player becomes his assistant and helps him to organise his suitcase before he sets out into the night.

Inspector Abberline is on the Ripper's case though and is not giving up on cracking the United Kingdom's most perplexing murder mystery of all time. With many different symbols and bonuses, the assistant must help their boss to assemble his full complement of instruments.

HELP JACK EVADE THE LAW!
